The module features a vertical column of eight circular indicator lights on the left, each with a label (A through H) to its left. To the right of these lights are three columns of indicator lights labeled 'DISABLE', 'FAULT', and 'FIRE' at the top. Further right are two columns labeled 'ZONE' and 'LOCATION'. The 'LOCATION' column has labels 'SAP - 5 (5.5 - Staircase 1)', 'SAP - 6 (5.6 - Staircase 1)', 'SAP - 7 (5.7 - Staircase 1)', and 'SPARE' repeated four times. The module is mounted on a rack with a label 'Zone Detection Module (ZDM)' at the bottom.

Figure 1 shows two examples of the proposed system. The left example is a 6x2 grid of buttons. The first column has six buttons labeled 'A' through 'F'.
